## FINANCIAL PLANNING SERVICE

Dear Client:

Due to increased client interest in financial planning, I continue to provide quarterly updates on the investments I recommend. Clients that actively use our services are aware that:

- 1) A large percentage of the investments I recommend are in the S & P 500.
- 2) I only recommend investments that my family actually owns and that we follow daily.
- 3) I am paid only on a fee basis for the time spent reviewing your portfolio and making recommendations.
- 4) I am not a registered investment advisor. Due to the fact that I only provide investment advice as an incidental part of other services, I am able to qualify for the accountant's exemption from registration.
- 5) I chart recommended investments on a spreadsheet in order to review them and to update clients on the results.
- 6) Finally, I am not a market timer. The strategy followed is buy and hold. This strategy reduces trading costs, taxes, and planner fees.

Currently, I recommend eight mutual funds. My family also has three self directed individual stock portfolios that attempt to outperform the S & P 500 due to lower costs and superior stock selection. I consider myself a value investor that likes reasonably priced technology stocks. The actual results are as follows:

	2004 (12 mos.)	2005 (12 mos.)	2006 (12 mos.)	2007 (12 mos.)	2008 (12 mos.)	2009 (12 mos.)	2010 (3 mos.)
